

## Technical Alert

### Call for comment on draft Compositional Guidelines

- I) ***Proposed revision of the draft compositional guideline for Trefriw Wells mineral water***
- II) ***Compositional Guideline for Calcified Lithothamnion tophiforme (AAN)***

Dear Members,

The CHC is seeking comment and input from stakeholders in relation to a proposed revision of the draft compositional guideline for Trefriw Wells mineral water and draft compositional guideline for Calcified *Lithothamnion tophiforme* (AAN).

**Proposed revision of the draft compositional guideline for Trefriw Wells mineral water:** Industry have requested that TGA revise some of the current parameters included in the draft compositional guideline for Trefriw Wells mineral water and as such, a number of the method references and acceptance criteria have been revised. These proposed changes to the draft are presented together with the current specifications.

The draft for this set of compositional guidelines can be found [here](#).

Comments on the proposed guidelines for Trefriw Wells mineral water can be sent to the [CHC](#) by the **1st March 2013** for submission to the TGA by the 8th March 2013.

**Compositional Guideline for Calcified *Lithothamnion tophiforme* (AAN):** Comment from stakeholders is also being sought regarding the Compositional Guideline for Calcified *Lithothamnion tophiforme* (AAN). Comments can be sent to the [CHC](#) by **19 February** for submission to the TGA by 26 February 2013. The draft for this Compositional Guideline can be found [here](#).

#### Submissions may include:

- Suggested improvements and whether or not you support the draft compositional guideline. If you do not support the draft compositional guideline, you may make suggestions for an alternative acceptable to you, providing relevant documentations to support your suggestions.
- An assessment of how the draft guideline will impact on you. That is, what do you see as the likely benefits or costs to you (these may be financial or non-financial). If possible, please attempt to quantify these costs and benefits.
